

Society for Conservation Biology
Kingston chapter
Meeting Minutes
Start Time- 2:36

Nov 28th, 2010

Social committee

- Google docs, put up an exec contact list
- One more meeting before the end of the term, potluck meeting with Christmas goodies ☺

Education & Programs committee

- December 15, 2011, Boys and Girls Club, group of 20..4:15- for 25 min to 45 min, teach them about the life cycle of the frog / how pollution can effect their growth or teach them about the different species in Kingston
- Give kids stickers after they learn about the frogs? Since we can't go paint the drains

Sustainability committee

- Garden work was done Friday (Nov 25th), still not completely done ,so need to plan another session- Tuesday, November 29
 - Need to gather equipment and volunteers to help out (bring scissors)

Issues committee

- Lisa Ozanic, contacted her on Saturday....sediment barriers are hard to maintain and fence barriers trap snakes and other wildlife, look at other options
 - Maybe contact the amphibian director at Toronto's zoo??
- Feature creature- red breasted nuthatch- found one that had run into a window at biosci, wanted to put bird stickers on the window to deter them from running into them
- Pamphlet on seafood on computer, can put pamphlets on website and send it out to everyone
- Tom night, Rm 1103, live Skype with woman associated with climate change human rights and C.O.P conference in South Africa

Photo contest committee

- Selling the cards for \$10, should we sell the pack of five for \$8? And sell individual cards for \$2 each?
- Selling all of this week with the reduced prices, will send email out

End of meeting- 3:11
